## Our Services

### Specialists in High-Quality and Service to Users of Industrial and Marine Castings

#### High Production and Short Run Service

Brass/Bronze/Copper//Manganese and Aluminum Alloys

- Design and Engineering
- Pattern Shop Facilities
- Machining and Burnishing
- Proto Type

A completely equipped Wood and Metal Pattern Shop allows us to produce patterns from print to finish product. Our Pattern Shop allows Algonac to produce metal patterns, production plates, and core boxes that are compatible with our equipment, enabling Algonac to achieve the highest quality with efficiency in workmanship.

Additional facilities and services are a fully equipped machine shop, continuous departmental Inspection and Quality Control system. Fully equipped assembly room, finished goods storage areas, efficient shipping and modern production control methods and scheduling allow Algonac to offer a continued high standard of quality and service.
